# First Grade Summer Math Review Calendar 2020 Answer Key

Dear Families,

Research shows that most students lose about two months worth of skills in mathematics during the summer months. You can help stop this from happening! Attached to this letter are math review calendars for June, July, and August. For each day on the calendar, there is a question, problem, or activity for your child to do at home that will help to review the concepts covered during the school year. These concepts will be built upon as your child enters the next grade level. It is suggested by your child's math teacher that your child will work each day to review and talk about the concept with a family member. Encourage your child to explain to you what they know and to show their thinking using words, numbers, and pictures. Please initial each day of the calendar as your child completes each task. Your initials will indicate that your child not only did the task, but that you also talked about it together and/or looked at their work and that they solved it correctly.

Your child is encouraged to return the math review calendar to his or her new teacher with all of the days initialed. I hope you will enjoy letting your child show you how much they've learned!
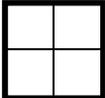

Thank you! ☺

First Grade Summer Math Review Calendar June/July 2020

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	29 Draw 2 ten frames. Show 15 on the ten frames.	**30** Add. 3 + 3 + 7 = _13_ Which strategies did you use? Make 10	**1** Show the number combinations that make ten. 1+9, 2+8, 3+7, 4+6, 5+5, 6+4, 7+3, 8+2, 9+1, 10+0, 0+10	**2** Compare the numbers: 17 _>__ 14 Explain how you know you are correct.	**3** Start at 32 and count to 100	**4** Abigail has 52 markers. How many bundles of ten can she make? 5 bundles
5 Use objects in your house to show the number 18.	**6** Solve. 7 bugs were on a log. Some more bugs crawled there. Then there were 11 bugs. How many bugs crawled on the log? 4	**7** Compare using >,<,= 35 < 53	**8** Solve. 14 strawberries were in the basket. I ate some of them. Then there were 7 strawberries. How many strawberries did I eat? 7	**9** Use objects or draw a picture to show: 7 + 5 = 12__	**10** Solve. 12 flowers are in a vase. 8 are pink and the rest are yellow. How many flowers are yellow? 4	**11** Solve. Joe has 10 toy cars. Some are red and some are blue. How many could he have of each color? Any combination that includes red & blue to equal 10
